

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Opie Street Balanced R Inc GBP

WS Opie Street Balanced Fund, a sub-fund of the WS Opie Street ICVC R Income, ISIN: GB00BJMHLW07
The Authorised Corporate Director of this Fund is: Waystone Fund Services (UK) Limited .

Objectives and investment policy

The investment objective of the Fund is to provide long-term (5 – 10 years) growth through a combination of capital and income.

The Fund will adopt a global investment approach, unconstrained by a formal benchmark, with a diversified exposure to a range of asset classes including equities (both UK and global); government and public securities, investment grade corporate bonds (corporate loans that pay interest), deposits, cash and near cash (to provide liquidity), alternative assets and other fixed interest investments.

The Fund will invest primarily (at least 70%) in collective investment vehicles (for example open-ended investment companies, unit trusts, exchange traded products, investment trusts). Typically no more than 75% will be exposed to equities, with the standard weighting being 55-75%.

Through these investments, the Fund may also obtain indirect exposure to alternative assets, including property, infrastructure, private equity and gold. The Fund may also invest directly in the asset classes listed above with the exception of alternative assets.

The Fund has the power to invest in derivatives (investments whose value is linked to another investment, such as performance of a stock exchange or an exchange rate) to reduce risk or cost or to generate additional capital or income at proportionate risk (efficient portfolio management) but it is not anticipated that this power will be utilised at the current time.

Investors can redeem shares on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income shares, any income received is paid out to you twice a year. For accumulation shares, any income received is reflected in the price of shares.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a long-term investment only.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- As the Fund launched on 1 August 2019, the indicator has been calculated based in part on the volatility of the Investment Association Mixed Investment 40-85% Shares Sector (GBP) average over the last five years (in total return and GBP terms).
- The Fund is in the above risk category because it invests in a variety of asset classes.
- The lowest category does not mean a Fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets may become insolvent, which may cause losses to the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.68%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	No
-----------------	----

- The ongoing charges figure is based on the expenses incurred by the Fund for the year ended 31 July 2022.
- The figure may vary from year to year. It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.
- For details of the actual charges, please contact your financial adviser/distributor.

Past performance

Source: FE fundinfo 2023

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 01/08/2019.
- Share/unit class launch date: 01/08/2019.
- Performance is calculated in GBP.
- Performance is shown inclusive of all charges, except entry charges.
- Performance is shown on a total return basis (on the basis that distributable income has been reinvested).

Practical information
